

ONLINE SAFETY for Families

2-3pm Thursday 7th December 2017

Social networking, online gaming and instant messaging. These are some of the everyday activities children of the 21st century take part in. However, with any online interaction there are a range of risks and safe ways to use the Internet. Churchfields Junior School are excited to offer parents and carers a session to promote positive online behaviour.

This session will look at the benefits and risks of the online activities young people enjoy taking part in.

The session will include useful hints and tips on helping your children manage the risks, how to stay safe online and the measures you can take to filter or restrict internet and online content.

There will be an opportunity to ask questions, share your own experiences, pick up helpful resources with more information, and learn about how our school supports and educates your child with being safe online.

The session will be hosted by Mr Wilkins, our school's Computing Leader.

We look forward to seeing you there.

ONLINE SAFETY FOR FAMILIES
