

# Science - Test Your Skills

## Year 5 Animals Including Humans

1. Fill in the correct ages for these stages of growth.

	Stage of Growth	Age in years
A	Infancy	
B	Childhood	
C	Adolescence	
D	Adulthood	
E	Old Age	

0-2
65+
3-12
18-64
13-17

1 mark

2. Circle the correct gestation period for humans.

- Approximately 40 months
- Approximately 9 weeks
- Approximately 40 weeks
- Approximately 12 weeks

1 mark

3. What is the difference between a marsupial and a mammal's gestation period?

1 mark

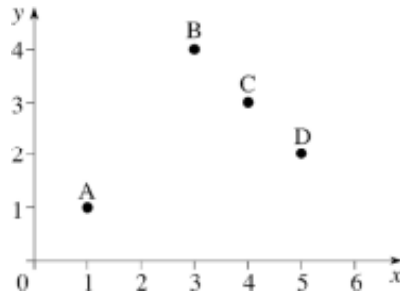

4. Fill in the blanks using the words below.

Generally, the larger the mammal the .....its .....

shorter   longer   life expectancy   gestation period   heavier   weight

1 mark

5. Circle the anomalous result:

1 mark

6. The correlation between age and height at Primary School is

- Positive
- Negative
- Random

2 marks

7. Which below is not a reason for an anomalous result?

- Lack of scientific precision
- Human error
- Wrong graph
- Inappropriate measuring

1 mark

8. How can a plant be reproduced asexually?

---

---

1 mark

9. What does the 'line of best fit' show?

---

---

2 marks
