

# Geography - Test Your Skills

## Year 5 Population and Settlement

---

### 1. Population density is...

- the number of people living in an area, usually square kilometres.
- the amount of people it takes to fill a country's population.
- how dense a country is and therefore how many people can live there.

1 mark

---

### 2. True or false?

“There is not enough food in the world for everyone”.

- True    False

1 mark

---
